Subject: NASH

NASH--- Non-alcoholic fatty liver disease....another opportunity for pharmaceuticals....supported by negligence of so-called Representatives Of The People to protect the public....in order to promote commerce....aaaahhh, capitalism.....how we miss you democracy!

<http://www.wholehealthinsider.com/newsletter/new-silent-killer-non-alcoholic-fatty-liver-disease/>

Presentation on www.rt.com. Watching The Hawks, is the story of NASH. This seems to be a liver condition that can be life-threatening, caused by artificial ingredients in food, fast food, and other modern lifestyle choices of so-called nutrition. Understanding the propaganda value to Russia of mention of this presentation, one must remind that if corporate-run mainstream media didn't censor corporate bad news, one would be more interested in getting news from U. S. corporate-owned stations.

Of interest is the previous nominee for Labor Secretary Puzder, who has since backed out after unfavorable press. Mr. Puzder was the fast food entrepreneur who articulated his preference to mechanized robotic employees over people. Apparently making ill the people he denigrates isn't a problem, also.

On the subject of NASH, pharmaceuticals are reported to be working feverishly to come up with a pill to save the public. Again, full circle....feed them crap, tell them it's good for them, make them sick, and then come up with a costly drug to so-called make them well. The fact that any medication has side effects and leads to ever more need for medication is just the cherry on top.

Labor pick Puzder outsourced jobs, favored robots over ...

www.japantimes.co.jp/news/2017/01/27/world/politics-diplomacy...

Jan 27, 2017 · **Puzder's** company, CKE Restaurants Inc., ... **Puzder** also has talked about replacing American workers who demand higher wages with **robots**, ...

The attacks on the U. S. public by the U. S. government/commerce is becoming more sustained, intense, and deadly. Violation of human rights and environmental rights has manifested into legislation. We are a nation of laws, as the public is endlessly informed.....those laws needn't be moral or ethical.

<https://www.rt.com/usa/378346-epa-scott-pruitt-emails-oil-lobbyists/> -- Exploiting and destroying priceless American nature for profit, with the complicity of legislators, is a bygone conclusion. The pollution kills people. That commercial interests have convinced the public that environment and people are not related, has resulted in the silence of those dying. One hears people say the environment isn't their thing, and their parochial issues are more important than the bunnies and Bambi "out there". Make no mistake, the bunnies and Bambi breathe the same air and drink the same water as do your children.

The unvarnished fact is that so-called representatives of The People and politicians in general are selling the life of the U. S. public for campaign contributions.

Received from Credo Action---PETITION---
SUBJECT: I just signed this petition -- will you?

In the face of Donald Trump's fascism, Senate Democrats' job should be clear: stand up for core progressive values, defend the people most threatened by Trump, and block and resist Trump's hateful agenda.

That's why it is unacceptable for a conservative extremist like West Virginia Sen. Joe Manchin to hold a leadership position in Chuck Schumer's Senate Democratic Caucus.

Join me in signing the petition asking Schumer to remove Manchin from his leadership team:

https://act.credoaction.com/sign/Manchin_Schumer?referring_akid=a259027886.2842878.ibStxq&source=conf_email&akt

<http://www.dailymail.co.uk/news/article-3757088/Sen-Manchin-mum-EpiPen-hikes-daughters-drug-company.html> -- The reason I voted for Green Party Senatorial Candidate Robin Laverne Wilson in NYS was in rejection of Senator Schumer's crony capitalist support of The Military-Industrial Complex.

<http://www.bing.com/videos/search?q=Green+Party+Senatorial+candidate+NYS+Robin&view=detail&mid=2885BF562396>

I will vote for those promoting governance of, by and for The People....AKA democracy.

That Schumer supports Manchin is not a surprise.

In Solidarity with cultures of humanity rather than cultures of capitalistic hierarchy---<https://chiapas-support.org/2017/02/23/there-will-be-no-wall-sioux-yaqui-and-tohono-oodham/>

---Capitalism requires borders to measure their competitive prowess and to create the concept of raising the bar, which enhances profit. Human culture thrives on cooperation, peace, and equality.

EcoWatch.....Too many excellent articles to choose just one---<http://us7.campaign-archive2.com/?u=214ab5fbb3f6015d74ffab4ec&id=9777779087&e=d4966762a5>

So-called representatives of The People are not misnamed due to their betrayal of representation of We The People in favor of representation of corporations, including multi-national. Sorry, Trump, so-called is a dismissive description of charlatans. The People are fully viable and those to whom government owes loyalty, as their oath to public office, hand on a bible, suggests----

<http://www.commondreams.org/news/2017/02/22/sorry-mr-president-theres-nothing-so-called-about-these-angry-crowds>

This Reality Show hostility toward We The People----<http://www.commondreams.org/news/2017/02/22/we-are-still-here-water-protectors-remain-prayer-brace-mass-arrests>

-----that includes militarized local law enforcement used against those standing up for human rights and environmental rights, is the reason legislation such as NYS Senator Fred Akshar of District 52 who proposes the Heroes Protection Act to prosecute as a hate crime, perpetrators of harm to law enforcement. While nobody advocates harm to law enforcement, insurgency at Standing Rock such as perpetrated by Blackwater offshoot Tigerswan against U. S. community members standing against violation of human rights and environmental rights, must be deeply discussed publicly. That the Bush/Cheney Administration has ties to Blackwater is of particular interest, and does not promote confidence from the public.

As government is ever more run as business, the fact that on a continuum this can be a definition of organized crime, will bring to mind questions as to the harm that will accrue to the public when self-defense becomes a crime, as could happen under the Heroes Protection Act.
